Should you exceed the maximum number of service visits prior to the plan expiry, you can still enjoy peace of mind coverage for the 6 wear items during your plan coverage period.

Coverage for eligible vehicles begins on the date of plan purchase and ends at the selected time (from Warranty Start Date) or distance travelled (on the vehicle's odometer) limitation (whichever occurs first); time and distance travelled limitations are calculated from the Warranty Start Date and zero kilometres.

The maintenance services covered by an LMPP are based on the scheduled maintenance services listed in your Owner's Manual. The 6 month/8,000 kilometre maintenance interval is serviced according to Special Operating Conditions as outlined in your Owner's Manual. Commercial FMPPs include a fixed service maintenance interval of 6 months/8,000 kilometres. All other maintenance intervals are serviced according to Normal Operating Conditions as outlined in your Owner's Manual.

- There is a maximum number of covered maintenance services visits allowed based on the time and distance interval of the selected plan. Depending on the time or distance maintenance intervals actually followed, the number of service visits received may not necessarily reflect the maximum number of service visits available. While maintenance services can be completed at any time during the plan coverage, Lincoln recommends that the scheduled maintenance, as outlined in your vehicle's Owner's Manual, be followed. Replacement of synthetic oil is not covered by LMPP unless optional synthetic oil coverage is purchased.

*Transfer fee may apply.
